

## **Green Practices**

### **a) Bicycles**

The report identified that 15% of our students are using bicycles which highlight their green consciousness and healthy lifestyle.

### **b) Public Transportation**

A fair number of our students resort to public transport system (64%).7% of our students make use of the two college buses.

### **c) Pedestrian friendly roads**

Pedestrian friendly paths are there in the campus. The recent infrastructure development ensured such facilities all over the campus.

**d) Plastic free Campus:** The use of plastic, plastic flex boards and other materials are banned in the college. Cloth banners are promoted instead and alternate facilities have been arranged.

**e) Paperless Office:** Our institution is inclined towards digitization. Administrative and governance documents are normally sent and received as emails. Recycling of waste paper is also part of the policy.

**f) Green landscaping with trees and plants:** The college preserves old trees in the campus along with the 'arboretum'.
